FROM: Adam Pritchard P.E., Project Development Engineer
Bureau of Local Projects

DATE: June 30, 2010

RE: Project Related Permits-DOT Form 1307

LEB JB
Manual?

This is a reminder to all cities administering their own projects that all project related permits required by state or federal regulatory agencies must be submitted for LPA-Administered projects prior to submittal of final check plans. Please refer to BLP Memo 10-6 that was distributed on June 7, 2010.

I ask that you please share this with all of your project managers in order that everyone is aware of this requirement.

If you have any questions, please feel free to email me at adamp@ksdot.org or call me at 785-296-3934.
