ENGINEERING SERVICES SELECTION

Attached are proposals from nine engineering firms to perform design services on the above referenced project. As one of 5 selection members please review each proposal and rank them on the attached response sheet. Also, note if you think interviews might be necessary.

I'll compile the rankings and consult with each selection team regarding the need for interviews. Your ranking sheets should be returned to me by January 10th.

Note that this is a qualifications based selection process. Staff will negotiate a scope and fee for the services once a firm has been selected.

Thank you for your participation in this process. Please contact me with any questions, (913) 895-6052.
