**2011 CDBG NEIGHBORHOOD STREET RECONSTRUCTION PROGRAM
CITY OF OVERLAND PARK PROJECT NO: SR-1352
STREET LIGHT REMOVAL REQUEST**

Dear Gary:

We are in the final plan phase of design for the 2011 CDBG Neighborhood Street Reconstruction Program. The project will consist of installing a city-owned streetlighting system to replace the existing leased streetlights. Therefore, the existing leased streetlighting will be removed.

The identification of the streetlights that will be removed is listed below. It is possible that not all the streets will be funded. Therefore, please provide us with separate costs associated for the removal of the streetlights for each of the streets for our approval; separate streetlight disconnect orders; and separate construction drawings showing the work that is required.

81st Street

PK-6008, PK-1511, PK-1513, PK-1514, PK-1515, PK-1516

80th Terrace

PK-1529, PK-1530, PK-1531, PK-1499, PK-1500

Glenwood

PK-1501, PK-1502, PK-1512

Barkley

PK-1503, PK-1504

We anticipate that the City-owned streetlights will be installed beginning in the fall of 2011 with completion by November 2011. At this time, it is our desire to have the existing streetlights removed after the new streetlighting is operational. Upon our approval of your documents, we will be contacting you in regards to scheduling each of the various locations. I will attempt to provide you as much notice as possible when we

release the work to construction. At that time, please coordinate your work with the contractor to ensure timely removal of your streetlights

Thank you for your attention to this matter. If you have any questions or require any additional information, please contact me at (913) 895-6027

Sincerely,

BRUCE L. WACKER, P.E.
ASSISTANT CITY TRAFFIC ENGINEER
