RE: STREET LIGHT REMOVALS FROM PURCHASED LEASED LIGHTS

2017 Neighborhood Street Reconstruction
CIP Project Number SR-1440

Dear Mr. Adamczyk:

The City of Overland Park removed 6 streetlights as part of our neighborhood street reconstruction project. Prior to their removal, these streetlights were part of the City's leased lighting purchase with KCP&L that became effective July 1, 2013 with the Streetlight Sale Agreement. The purpose of this letter is to confirm that the streetlight removal listed below has been or will be accurately reflected on the City's bill for this account (Account No. 2528348469). This account is based on estimated energy usage per kilowatt hour calculated in accordance with Tariff Schedule 70, Off-Peak Lighting Service. Therefore, the charge needs to be adjusted for every streetlight that is removed or modified in accordance with Section 4.4 of the Agreement, as follows:

At any time the City makes any changes to the System that may affect energy consumption, it will provide the Company a report detailing such changes. The Company will adjust its billing as appropriate.

The following streetlights were removed on the date indicated below:
