METCALF AVENUE / BLUE VALLEY PARKWAY (COLLEGE BLVD TO 123RD ST)
TH-0734 DESIGN

SAMPLE

Dear Mechele:

I am enclosing Account Setup Forms and Commercial & Industrial Electric Service Applications - Exhibit G, for a street lighting controller location for the Metcalf Avenue / Blue Valley Parkway improvements from College Blvd to 123rd Street. Also attached is a half-size plan showing the controller location. I have listed the controller below:

Street Lighting Controller Locations:

- 12025 LC Blue Valley Parkway

We are in the final design phase of the project at this time and utility relocations are already underway. The project is scheduled to bid the middle of February, 2008 with a notice to proceed by the first part of April, 2008. It is estimated that the street lighting work may be completed and ready for power by June 15, 2008. Please begin whatever work is necessary to ensure that we can obtain power at these locations at the specified time.

Please call me if you have any questions or need any additional information.

Sincerely,

BRUCE L. WACKER, P.E.
ASSISTANT CITY TRAFFIC ENGINEER
