**RE: Street Light Removals from Purchased Leased Lights**

Dear David:

The City of Overland Park **removed 21 streetlights** as part of our roadway improvement projects. Prior to their removal, these streetlights were part of the City’s leased lighting purchase with KCP&L that became effective July 1, 2013 with the Streetlight Sale Agreement. The purpose of this letter is to confirm that the streetlight removals listed below have been or will be accurately reflected on the City’s bill for this account (Account No. 2528348469). This account is based on estimated energy usage per kilowatt hour calculated in accordance with Tariff Schedule 70, Off-Peak Lighting Service. Therefore, the charge needs to be adjusted for every streetlight that is removed or modified in accordance with Section 4.4 of the Agreement as follows:

At any time the City makes any changes to the System that may affect energy consumption, it will provide the Company a report detailing such changes. The Company will adjust its billing as appropriate.
