

WV-S6532LN (Full-HD)

-220

EXTREME

Clear visibility of distant objects even in the dark

The Panasonic WV-S6532LN IR-PTZ camera has a powerful 22x optical zoom with infrared light (LED), plus a built in imaging stabilizer enabling Pan/Tilt 360 degree video surveillance up to 100 m under total darkness. Can monitor subjects at long distance range during daytime and also nighttime under zero lux no lighting environment suitable for perimeter surveillance at airports, critical infrastructure, defense, federal & government, manufacturing facilities, and for general city/road surveillance purposes.

Intelligent Auto (iA) monitors scene dynamics and motion to adjust key camera settings automatically in real-time reducing distortion such as motion blur on moving objects. Adopting H.265 Smart Coding technology, intelligently reduces bandwidth efficiency up to 95%* more than conventional H.264 for longer recording and less storage. *Value in Advanced mode with Smart Facial Coding depends on scene.

Extreme image quality for evidence capturing under challenging conditions

- Built-in IR LED to produce a clear monochrome image in 0 lux conditions with 100 m (330 feet) irradiation distance
- The visible light cut filter makes it possible to focus on subjects even in environments with a mix of infrared and visible light
- Sharp and clear image of fast moving vehicles with Intelligent Auto and ClearSight Coating
- Outstanding low light performance in true color with low noise for night time applications
- Dehumidification and defrosting with the defroster device
- Environmental durability: IP66, IK10, Long life Pan/Tilt gear mechanism

Extreme bandwidth compression with new Panasonic H.265 Smart Coding

- Longer recording, less storage compared to H.264 based compression techniques
- New self-learning ROI* encoding (Auto VIQS) dynamically detect motion areas to keep vehicles and human in good picture quality while lowering your bandwidth *Region of Interest

Extreme Data Security

- Full encryption SD card edge recording to keep your data safe
- FIPS140-2 CAVP compliant *Using encryption module standardized by FIPS publication 140-2
- Full end-to-end system encryption with supported VMS and devices to protect from IP snooping/spoofing and detect data alteration

Key Features

- Full-HD 1920x1080 60fps
- Long distance IR illumination
- 22x optical zoom
- ClearSight Coating
- Durable Pan/Tilt gear mechanism
- iA (intelligent Auto)
- Color night vision (0.001 to 0.015 lx)
- IP66, IK10 certified, Defroster
- i-VMD License Bundled
- Fiber Optic Media Converter Unit (Optional WV-X65F1)

Industry examples

- Traffic
- Safe city
- Railway
- Critical infrastructure
- Airport
- Stadium

Specifications

Camera	Image Sensor	Approx. 1/2.8 type CMOS image sensor			
	Minimum Illumination	Color : 0.015 lx, BW : 0.006 lx			
		(F1.6, Maximum shutter : Off (1/30s), AGC : 11)			
		BW : 0 Ix			
		(F1.6, Maximum shutter : Off (1/30 s), AGC : 11, when the IR LED is lit)			
		Color : 0.001 lx, BW : 0.0004 lx			
		(F1.6, Maximum shutter : max. 16/30s, AGC : 11) *1			
	Intelligent Auto	On / Off			
	Shutter Speed	1/30 Fix to 1/10000 Fix			
		*1/30 Fix to 2/120 Fix is available during 30 fps mode only.			
		*1/60 Fix is available during 60 fps mode only. On / Off, the level can be set in the range of 0 to 31.			
	Super Dynamic*2				
	Dynamic Range	144 dB (Super Dynamic : On)			
	Image Settings	Gain (AGC), White balance

1 Converted value
 *2 When 60 fps is selected, the Super Dynamic function is automatically set to off.
 *3 Stabilizer, Auto track, Smart Facial Coding, i-VMD, can not be used at the same time.

4 If it is out of the recommended range, part of the image may be missing.
 5 H.265/H.284 can be selected for each stream.
 6 Transmission for 4 streams can be individually set.
 7 When recording audio on an SD memory card, only use AAC-LC (Advanced Audio Coding - Low Complexity).

*8 Including alarms from Plug-in Software

*9 The audio output can be switched to the monitor output. Refer to the Operating Instructions on the Panasonic support web site for descriptions of how to switch the output. *10 When using with the IR LED light constantly lit, the upper limit of the operating temperature range is +45°C {+113 °F].
