FROM: Bruce Wacker, Supervisory Civil Engineer

RE: AB Chance Screw-In Light Pole Foundations

REMARKS:

AB Chance Screw-In Light Pole Foundations have been previously approved for use on City of Overland Park street lighting projects. They have recently combined the T1 and T2 foundations into one common bolt circle. This approval memo is confirmation of the existing catalog numbers as well as the approval for the revised T1 foundation.

The catalog numbers are as follows:

T112-0363 – 14' post top – R1  
T112-0748 – 30' single or twin – T1  
T112-0293 – 40' single – F1  
T112-0294 – 40' twin – F2

The catalog number extension 0101 has been added to the 40' foundations to reflect the bolt instead of the stud. 4/25/06
