

FOR IMMEDIATE RELEASE

Myers Power Products, Inc. Acquires Pacific Utilities Products

ONTARIO, CA, NOVEMBER 30, 2012 – Myers Power Products, Inc. (“Myers”) announces the acquisition of 100% of the shares of Pacific Utilities Products (“PUP”), a manufacturer of commercial and residential electrical service metering equipment, industrial control panels, and custom electrical enclosures.

This acquisition represents another step forward as the Myers Group of Companies continues to broaden its product lines and market presence; the PUP line is a natural fit to Myers existing Commercial and Industrial low-voltage electrical products group.

Myers Power Products, Inc. has been a leader for over 60 years in the engineering and manufacturing of Medium and Low Voltage Electrical equipment, including metering equipment, lighting inverters, battery back-up systems for Broadband, Telco and Traffic Control, medium and low voltage AC & DC Switchgear and related components.

Myers Power Products, Inc. Corporate Headquarters are located at 2950 E. Philadelphia Street, Ontario, California 91761.
