Solar Assist Light

Model 2006 Plus

- Internal solar panels trickle charge "D" cell Alkaline batteries to give a superior long lasting more reliable power source.
- Solar panels are internal providing less chance for damage and theft.
- Our all-new line of Type A, C and 3-way, 3volt high efficiency lights.
- Features completely redesigned rugged and durable co-polymer case with breakaway internal candle.
- Servicing is made easy with a snap-lock case and vertically positioned batteries.
- The "D" cell batteries simply drop into to the light base and the case is ready to be snap-lock closed.

- Candles from 2006 and 2006 Plus solar assist are **interchangeable**
- The case will remain closed and secure during the rough handling normally encountered during transportation and service work.

- The impact absorbing breakaway candle reduces internal damage.
- Bright and dependable LED's coupled with power efficient, reliable moisture proof circuitry, provide trouble-free operation.
- Type A and C lights comply with **current ITE purchase specification** referenced in the Federal MUTCD (the light must function and meet output specifications without the solar panel hooked up for 336 hours in the Type A mode and 168 hours in Type C mode)
