LifeVest™

Directional Barricade

LifeVest fits most traffic drums. Utilizes a simple, durable latching system.

Create a bi-directional barricade with 2 LifeVest devices per drum.

LifeVest™ Features

Convert old drums to directional barricades.

Replace arrow panel with sheeting to create Type I or Type II barricade.

Manufactured from high density polyethylene plastic with UV inhibitors.

Retroreflective sheeting meets all state and federal specifications.

Sheeting is available in Engineer, Hi-Intensity and Fluorescent grades.

Shown: LifeVest attached to PSS LifeGuard II Drum with internal, molded rubber base.

Drum and base sold separately.

FHWA Acceptance Letter WZ-102
