

PRODUCT: Living-Hinge UPStealth® Battery Panel

The Living-Hinge is a flexible, rechargeable, energy efficient and recyclable battery panel that is designed to fit between the rack and cabinet shell of a primary 170/2070 33X series traffic cabinet. The Living-Hinge is currently available in a 300 Watt and 500 Watt panel, with the ability to connect multiple panels to the Inverter/Controller to fulfill your required run times. There are four circular plastic connectors on the Inverter/Controllers for connecting the UPStealth® panels.

300W Panel (20 lbs):
19" wide x 17.25" deep x 1" tall (thick)

500W Panel (30 lbs):
19" wide x 27.35" deep x 1" tall (thick)

Living-Hinge UPStealth® Battery Panel (500W)

PRODUCT: NEMA UPStealth® Battery Panel

The NEMA UPStealth® Battery Panel is designed to set on top or installed underneath the NEMA cabinet shelf. In addition, the battery panel is 19" EIA Rack Mountable. The NEMA version comes in a 500 Watt design, with the ability to connect multiple panels to the Inverter/Controller to fulfill your required run times. There are four circular plastic connectors for connecting the UPStealth® Battery Panels to the Inverter/Controllers.

500 Watt Shelf (28 lbs) (Rack Mountable):
17" Wide x 10" deep x 3" tall
