

DIN Relay

Overview

The DIN Relay cycles power to the cameras, ensuring that a camera recovers if the network port loses the connection. This prevents overloads, brown-outs, blown breakers and other power problems before they occur, eliminating the need to be on-site to reset equipment that has "locked up."

Features

- 10/100 autosensing plug-and-play Ethernet connection with static IP allows connection anywhere on your LAN or WAN
- Password protected
- Movable HTTP port for security

Power	Weight	Temperature	Humidity	Dimensions
8 to 24VDC	1.2 Kg (2.7 lbs.)†	-34°C to 77°C (-30°F to 170°F)	N/A	147mm wide x 117mm deep x 69mm tall (5.8" wide x 4.6" deep x 2.7" tall)
