FROM: Bruce Wacker, Supervisory Civil Engineer

RE: Arnco Universal Innerduct Aluminum Couplers

REMARKS:

Arnco Aluminum Couplings are approved for use on City of Overland Park traffic signal projects. The coupling is used for 1 ½" and 2" HDPE conduit.

The catalog number for Arnco is
IA 551-150U – 1 ½"
IA 551-200 U – 2"

The conduit would not be approved for the 3" HDPE conduit due to size limitations on the product.
