

AXIS Q6034-E PTZ Dome Network Camera

Outdoor-ready for high-speed HDTV surveillance.

- > HDTV 720p, day/night and H.264
- > Outdoor-ready and Arctic Temperature Control
- > 18x optical zoom and 220° tilt
- > Active Gatekeeper functionality
- > High Power over Ethernet

AXIS Q6034-E PTZ Dome Camera provides outstanding video quality and performance. The outdoor-ready PTZ dome provides HDTV coverage of large areas, great details when zooming in, and high-speed pan/tilt performance.

AXIS Q6034-E offers HDTV 720p that complies with the SMPTE 296M standard regarding a 1280x720 pixel resolution, full frame rate, HDTV color fidelity and a 16:9 format. The day and night AXIS Q6034-E supports multiple H.264 and Motion JPEG video streams. H.264 greatly optimizes bandwidth and storage without compromising image quality.

AXIS Q6034-E provides 18x optical and 12x digital zoom with autofocus. The 18x zoom in combination with the HDTV resolution provides zoomed-in views that offer not only the same level of detail as a 36x-zoom, 4CIF camera, but also the extra advantage of a wider (16:9) field of view.

The camera also has a fast and precise pan/tilt response at 450° per second. It can tilt 20° above the horizon, enabling better views, especially over uneven terrain.

With Active Gatekeeper, the camera can automatically move to a preset position upon motion detection in a pre-defined area, and track the detected object.

Support for High Power over Ethernet simplifies installation since only one cable is required for power, video and PTZ controls. The IP66- and NEMA 4X-rated camera incorporates Axis' Arctic Temperature Control, which allows it to start up even at -40 °C (-40 °F). The built-in SD/SDHC card slot enables local storage.

Note: Mounting brackets are sold separately
