FROM: Bruce Wacker, Supervisory Civil Engineer

RE: Holophane PTU Residential Post Top Luminaire

REMARKS:

The Holophane PTU residential post top luminaire has been approved for use on Overland Park street lighting projects. It will replace the current Holophane RSL-350, which is no longer approved. The manufacturer is making some minor modifications to the PTU fixture in order to meet final approval. The changes are:

- Remove the photocell receptacle
- Polycarbonate Lens instead of glass

The new catalog numbers as of 7/7/10 are:

- PTU-100HP-MT-B-P3-B-P for 100 Watt HPS

**The lamp socket is mogul base. The 150W is no longer being used by Overland Park
