FROM: Bruce Wacker, Supervisory Civil Engineer

RE: JH Botts, Inc. Screw-In Foundation

REMARKS:

This product has been previously approved for use on City of Overland Park street lighting projects. The drawings have been revised to conform to our current standard details. The T2 base has been discontinued and the bolt circles for all of the OP300 series poles has been modified accordingly. We also use a threaded bolt instead of the stud for 14' poles. This is a confirmation on the approval.

Then new drawing number is:
JHBOPK-1 Rev. A
