FROM: Bruce Wacker, Assistant City Traffic Engineer

RE: Campbell Company 4EVR 120

REMARKS:

The Campbell Company 4EVR 120 pedestrian pushbutton detector has been approved for use on City of Overland Park traffic signal projects. It has an audible beep and a pressure sensitive switch instead of the plunger type. This approval has been modified to specify the button without the LED indication when activated.

The catalog number is:

4EVR 120 – X – No LED
Where X is: Yellow or Black

Accessories – Provided by Polaris to fit the Campbell button
9" x 15" Push Button Frame: PBF9X15X
Push Button Frame Extender: PBFE-XZ
Where: X is the color (Y for Yellow or B for Black)
Z is the length (06 for 6" or 12 for 12")
