

211 - GRADING OF SWALES

211.1 DESCRIPTION

Regrading of overflow swales and area grading shall be to the neat lines and grades indicated in the plans or as directed by the Engineer.

211.2 CONSTRUCTION REQUIREMENTS

All regraded areas shall have minimum topsoil as specified in the "Topsoil" section. Final grading shall be rounded and blended into existing grades to produce a smooth interface suitable for homeowner maintenance.

211.3 MEASUREMENT AND PAYMENT

The Engineer will measure the grading of swales by the lump sum.

Payment for "Area/Swale Grading" at the contract lump sum price bid is full compensation for the specified work.
